## Product Description

The Netis ST3116S is a reliable 16-port 10/100Mbps RJ45 switch designed for seamless network connectivity. Featuring Auto-Negotiation and Auto MDI/MDIX, it ensures effortless plug-and-play setup. With an 8K MAC Address Table, this switch delivers stable, high-speed performance for small to medium networks. Ideal for home, office, and business networking, the ST3116S combines efficiency, durability, and energy-saving technology.
