Product Description

The Dell Inspiron 7440 2-in-1 is a versatile 14-inch touchscreen laptop powered by Intel Core i7-150U processor, 16GB RAM, and 512GB SSD for fast performance and smooth multitasking. Its 2-in-1 convertible design allows you to switch between laptop and tablet modes easily, making it ideal for work, study, and creative tasks. This Dell Inspiron touch laptop combines portability, power, and flexibility for students, professionals, and creators.
