Product Description

ASUS ZenBook 14 OLED UM3406HA 2025 - Ryzen 7 | 16GB RAM | 512GB SSD | OLED Touch

The **ASUS ZenBook 14 OLED UM3406HA (2025)** is a premium ultra-slim laptop built for power, speed, and stunning visuals. Powered by the **AMD Ryzen 7 8840HS processor** and **16GB LPDDR5X RAM**, it delivers exceptional performance for multitasking, work, and content creation.

Enjoy ultra-fast responsiveness with a **512GB NVMe SSD**, ensuring quick boot times and smooth file access. The standout feature is the **14-inch WUXGA OLED touchscreen display (1900x1200)** with **100% DCI-P3 color accuracy**, offering vibrant colors and deep contrast for an immersive viewing experience.

With **AMD Radeon graphics** and **Windows 11**, it handles everyday tasks, creative work, and entertainment with ease in a sleek, lightweight design.

Key Features

- AMD Ryzen 7 8840HS (8 Cores / 16 Threads, up to 5.1GHz)
- 16GB LPDDR5X RAM for ultra-fast multitasking
- 512GB high-speed SSD storage
- 14" WUXGA OLED Touch Display (1900×1200)
- 100% DCI-P3 color accuracy for professional visuals
- AMD Radeon integrated graphics
- Lightweight, premium ultra-slim design
- Windows 11 pre-installed

Why Choose ASUS ZenBook 14 OLED?

The ASUS ZenBook 14 OLED is built for those who want **power without compromise**. Whether you're a student, business professional, developer, or creative designer, this laptop offers the perfect balance of **performance, portability, and premium display quality**.
