Product Description

The Acer Nitro V 16 ANV16-42R309 is built for ultimate gaming performance. Powered by an AMD Ryzen™ 5 240 processor and NVIDIA® RTX 5050 graphics, it handles the latest games with ease. The 16" FHD 1920x1200 display with a 180Hz refresh rate ensures smooth, lag-free visuals. With 16GB RAM and 512GB SSD, it delivers fast load times and seamless multitasking. Running on Windows 11, the Nitro V is perfect for gamers, creators, and professionals. The sleek Obsidian Black design, combined with a backlit keyboard, gives it a futuristic look.

Key Features:
